

Hi Bruins!

My name is Shrinidhi Balasubramanian – I am a first year MBA student at the UCLA Anderson School of Management and am excited to be running as your VP of Academic Affairs. As a current GSA representative on the Graduate Council, I have strived this year to make sure that graduate students' voices are heard in the creation and implementation of policies around our academic programs. Additionally, as a Forte Fellow and current Director of Professional Development for Anderson's Women's Business Connection (WBC), I am passionate about increasing representation of women in STEM and management fields, and about making resources that support professional growth more widely accessible to graduate students. As your VP of Academic Affairs, I will work to:

- Increase visibility of cross-functional and interdepartmental academic resources
- Improve accessibility of TA jobs
- Advocate for continued diverse representation on graduate student committees

Let's keep **Moving Forward!**
