Dear Residents,

I’m so happy and thankful to live in a place where residents maintain an active interest in the community and let everyone know what they like and don’t like. I appreciate every resident’s fair reporting of the problems and suggestions during the holiday season and helping their neighbors with their packages. I am thankful to have many residents participating in our events and meetings and contributing to the decision-making process on how our community is governed. We are eternally thankful to everyone who works hard to make sure our community is safe and affordable, be it Neighborhood Watch, UCPD, management and student groups within UCLA.

From our recent talk with UAS management and other public agencies, there are a few updates we want to report. The installation of surveillance cameras at residential entrances is one of the hot topics at the moment. The UAS management requested these updates from UCLA administration and it is unclear when these installations will take place. UAS management will update residents in the future when and where these cameras will be installed. In addition, there will be a proposal to increase the UCPD presence at our facilities at an additional cost. UASRA asked for more details on how much the rent would be affected and what the changes would be and we will present these findings to the residents. UAS management is working overtime to fix the problems with laundry machines. UAS management will also install shades over the playgrounds with artificial turf in the near future to avoid overheating on hot days. In other news, UASRA and Graduate Student Association were in contact with Big Blue Bus administration and Santa Monica Council to increase the availability of public transportation to our residents. Starting late summer/early fall, Line 17 will be implemented on Palms and Sawtelle corridors that will stop at UCLA. In addition, Culver City Bus increased the service of Rapid 6 Line starting January 12th, 2015 to ease the overcrowding problem. We will work closely with both agencies to make sure that our interests are represented in the decision-making process.

As the academic year is in full swing, there are several important things that we would like to remind our residents of:

- Please lock your windows, cars, close garage doors and deadbolt your doors when you are leaving your apartment’s. Ask your friend or neighbor to handle arriving packages or re-route your mail if you are away for an extended time.
• Due to false fire alarms in our community, we would like to ask our residents to keep their doors closed in case your apartment fire alarm goes off. The main reason for propping doors open is the residents cooking at home and the smoke may set off the alarm in the whole building forcing the evacuation and flooding in the other apartments. You are advised to open the windows and turn on the stove vents and contact management if needed. Please be considerate to your neighbors as some residents have asthma/allergies and not necessarily enjoy the smoke and smell in the hallways.

• Please do not leave any valuables visible in your vehicles. There is a general increase in the burglaries and car thefts in the area and there is no need to tempt potential criminals with easy targets. If you are parking on the street, park in well-lit area and invest in cheap car theft deterrent devices such as Steering-Wheel Locks.

• When using the laundry rooms, please follow simple etiquette rules: be considerate to others by being prompt and removing the laundry when you are done, avoid handling someone else’s laundry and allow other residents some time to remove their belongings, clean up after yourself and report any problems to management. Don’t leave your laundry-filled baskets on the premises for a long period of time as there was a report of laundry being stolen.

• The safety is the highest priority and we are asking residents to follow rules and regulations on the grounds. Slow down while you are driving on the premises and pay attention to kids and bicyclists. Do not let anyone into the residences without keycard or proper identification. Do not bring any shopping carts as they are a fire and safety hazard. Please, follow the guidelines when using common areas such as pools, barbeques and community rooms.

Please join us in our next General Assembly (GA) meeting that will be held on Wednesday, February 17th, 2015 at 7 pm at 3200 Sawtelle Community Center. It is a great opportunity for residents to meet our officers and management, learn about the current issues and voice their concerns. Food and free childcare will be provided during the GA meeting.

Best Regards,

Saken Sherkhanov
UASRA President
Minutes from UASRA Board Meeting

Wednesday January 14, 2015 at 7:00 pm

Board Members

Saken Sherkhanov, President
Martin Flores Bjurström, Vice-President
Jihyun Yeo, Treasurer
Miria Biller Hendrickson, Secretary
Carmen Flores Bjurström, Newsletter Editor
Negar Omidakhsh, Event Coordinator
Zahabiyah Dahodwala, Community Center Coordinator (resigned)

ORL Advisor

Addae Jahdai-Brown (excused)

1. Call to Order
2. Public Comments (n/a)
3. Information Item: Introduction of new Vice President (Saken Sherkhanov and Martin Flores Bjurström)
4. Information Item: Quarterly Financial Updates (Jihyun Yeo)
   a. Current balance of $26K. Expecting expenses of $12K with an additional $20K from ORL.
   b. We are still short $20K overall as treasurer from 2013-2014 forgot to ask for last payment from ORL. We are working to resolve this issue.
5. Discussion Item: Website Design and Suggestions (Miria Biller Hendrickson)
   a. A list was made of all the changes needed to be addressed. Updates will begin shortly, expected to be done by February GA meeting.
6. Information Item: Future UASRA events, schedule, tentative activities and workforce required (Negar Omidakhsh)
   a. There are three events planned from March-June.
7. Discussion Item: Future Events for Other UASRA offices during Winter Quarter (Saken Sherkhanov)
   a. Safety and Health Coordinator – Patience is working on CERT and CPR classes. She will present more information at the GA meeting.
   b. Green Coordinator – The Green Coordinator will be expected to increase work load in order to validate high monthly pay.
8. Information Item: Articles/Suggestions for Newsletter (Carmen Flores Bjurström) A brief discussion resulted in several ideas. Everyone is to email Carmen directly.
9. Discussion Item: Communication with UAS Management and updates (Saken Sherkhanov)
   a. Recent Criminal Activities near UA Grounds
      i. A suspect was videotaped at Venice Barry picking up packages and leaving. Crimes reported in Daily Bruin.
   b. Neighborhood Watch and Residents Reports
      i. Both have helped to identify suspects and deter crime. UCPD has arrested 6 thieves to date.
   c. Mail Theft and Possible Solutions
      i. Residents can still be doing more to eliminate bait. As long as packages are delivered and left by mailboxes for days, thieves will continue to be attracted.
   d. Lack of Communication from UAS Management and How to Move Forward
      i. There have been multiple attempts to receive information about the camera situation. We will ask again at this month’s PRB meeting. If no new information is given, we will forward our message to GSA and the Union.
10. **Information/Discussion Item: Public Transportation and Expo Line Development and Collaboration with GSA (Saken Sherkhanov)**

   e. The BBB is planning a completely new route (17) to travel along Sawtelle through the VA.
   f. Culver City Bus was going to increase the Rapid 6 in August, but due to all the feedback from our community, they have already added 3 busses! Now the Rapid 6 arrives every 10/15 minutes.
   g. UCLA Transportation and Our Concerns: UCLA Transportation office was absent in all discussions with Culver City Bus System and the BBB. Fortunately delegates from these systems listened and heard our needs. Lack of participation should be investigated by Daily Bruin.

11. **Information/Action Item: New UASRA Unit Representatives for Sawtelle D and Sepulveda A (Saken Sherkhanov and Martin Flores Bjurström)**

   a. New delegates are Tracy Martison (Sepulveda A), Jenna Donohue (Sawtelle D).

b. **No Additional Reports by the Officers**

   **Adjournment of Meeting**

---

**The Counseling Center**

Every new academic year, we can expect one thing to be certain: CHANGE. At this time, you may be addressing transitions in your family, social, academic, and work life. All forms of change, whether they are met with exhilaration or trepidation, involve stress.

The Counseling Center (CAPS) is committed to supporting student growth and development by helping students restore balance, build strength, gain emotional resiliency, and increase personal well-being. We endeavor to respond to students and their families' needs by providing additional support throughout off-campus housing.

Please contact our Residential Life Program Coordinator, Tanya Brown, PhD, at t.brown@caps.ucla.edu or (310) 825-0768 for further information, inquiry about workshops, or consultation.

**Location:**

John Wooden Center West  
Monday-Friday, 8am-5pm  
24-Hour Crisis Counseling Available  
(310) 825-0768  
http://www.counseling.ucla.edu

**CAPS Services:**

- Individual or Couples Counseling  
  Brief counseling and psychotherapy
- Psychiatric Care  
  Consultation and medication management
- Group Counseling  
  Work with others who share common concerns
- CARE Sexual Assault Services  
  Urgent coordinated care and counseling
- Wellness Skills Groups  
  Relaxation training and stress management
- ADHD Services  
  Diagnosis, assessment, and treatment of ADHD
- Self-Help Lab & Lending Library  
  Biofeedback equipment and self-help books

Minutes from UASRA General Assembly Meeting

Wednesday, January 21, 2015 at 7:00 pm

1. Call to Order (7:20 p.m.)
2. Public Comments (n/a)
3. AC Report
4. UCPD Report: Theft is up around the neighborhood, but not in our community. Remove everything of value from cars. If you are going to leave something in your trunk, move it before you get home.
5. UAS Management Report
   • Installment of security cameras is being assessed. Director Shirley Wong is working on it and is awaiting approval from the Vice Chancellor.
   • There will be an option in the future where residents can opt in for renters insurance. It is estimated to cost about $140/year.
   • If there are smokers by the gate during business hours, please call the main office. They will send someone out immediately to inform the person(s) that it is not allowed. Call ACs after hours.
   • UA IT department is working with WASH and Time Warner Cable to resolve the laundry room system. It may have to be replaced.
   • The windows facing the 405 in Sepulveda reported as being dirty from pollution; request will be made.
   • A request was made to have maintenance staff alert residents in advance of entering to address a maintenance request. Once a request is made, a resident is giving permission for staff to enter and fulfill the request. There is no system for maintenance staff to give any more advance notice other than knocking on the door.
6. General Officers’ Reports
   • Multiple unit reps reported laundry room issues.
   • Sawtelle A unit rep saw a child push on a laundry room door hard and often enough that the magnetic mechanism was disarmed. If you see any unsupervised children, call management during regular hours and ACs after hours. Children have been escorted back home and parents instructed to supervise before.
   • Sawtelle side reps reported smelling gas by grills, a man in a dumpster, and missing swing. If you smell gas, call office or ACs immediately. Also report anyone near dumpsters. The swing has been ordered and delivered. It should be installed soon.
   • Nothing reported from Keystone/Mentone/Rose areas.
   • Venice/Barry mailroom has kept all the packages safe. They’re so safe, no one’s picking them up! It’s possible that the email notifications are going to residents’ spam folders. Management is looking into a different way to notify residents.
   • Green Coordinator requests feedback and suggestions for programs to be implemented in UAS.
   • Safety Coordinator can set up CPR classes for residents. She is asking for an estimate as UASRA will subsidize part of the fee.
7. Management Excused
8. Reports from Board Members
   • President: Shades for playgrounds will be installed. Management will put out bids to contractors and report with four options of styles and colors. UASRA will vote on shades when the options come in. Management is looking into clear privacy adhesive covers for first floor apartments so that there is a cohesive look. Thanks to the surveys and participation from our residents, Culver City Bus has already added more buses to the Rapid Route 6. They are now passing by every 10-12 minutes instead of every 25. BBB is also adding a completely new line which will travel up Sawtelle, through the Veterans Hospital, and to UCLA in early Fall, 2015. All by-law changes approved unanimously by UASRA officers. Changes suggested to unit representative by-laws.
   • Newsletter Editor: Looking into the possibility of newsletters going to SPAM folders.
   • Treasurer: We are under budget. As a reminder, if you miss more than 2 meetings unexcused; you will be fined. Please let us know to avoid a fine.
   • VP: Welcomed two new unit representatives. Flyers will be bundled to avoid multiple distributions.
9. **Report from ORL Advisor** (Addae Jahdai-Brown)
   - The Covered California event was very successful. We’re working with Bruin Resource Center and Students With Dependents to plan more activities. Contact Dana (Resource Center) or Addae with suggestions for events. Each office has resources to be used for events. Ice skating, children’s theatre, date night with childcare, etc.

**Adjournment of Meeting (8:58 p.m.)**

---

**Minutes from UASRA Policy Review Board Meeting**

**New members of the group**

- Martin: new UASRA VP
- Bridgette: Assistant Director

**UCPD Update**

1. There’s an increase in some crime in the surrounding community. General increase in motor vehicle thefts around the community; not within the community. Eliminate bait in cars; remove everything of value from sight. If you are going to leave something in the trunk, change it to the trunk before you get home. Someone may be watching.
2. Packages at Venice Barry are piling up. Shirley noted that not all residents realize they need to actually go to the newly established mailroom.
3. Officer Duren has been informed by both his higher ups and LAPD that: UCPD & LAPD are not responsible for package thefts, the recipient is.
   a. Eliminate bait by having packages held at a PO, delivered to office, or asking for signature.
   b. Don’t leave things in your car.
4. UCPD has arrested 6 people within the last 6 weeks, mostly from the student occupied communities northwest of campus.
5. Overall, security is much better than it used to be. The gates and various improvements have made the UCLA property safer.
6. PO issues are still a major concern of the UAS residents.
   a. Shirley recommended writing letters to the postmaster general and the senator responsible for their supervision. Lizca will draft the letter, work on it with Bridgette, and give it to Saken for use with the petition.

**Financial Update**

   a. We’re ahead due to lower expenses in general. Liability, utilities, custodial.
   b. **Major Maintenance expenses**
      i. Money left to spend for the year is $2.5 million.
      ii. All buildings still need the flooring finished. The previous contract is up and they’re in the bidding process for the next phase.
   c. **Vacancy report’s not done yet.**
   d. **Budget revision**
      i. Originally budgeted for projected accumulated revenue is 32K over originally planned. Reason = higher revenues and lower expenses. (UAN had a summer session increase. UAN had a higher take rate in summer classes [higher occupancy], projecting higher summer occupancy in undergrad buildings).
      ii. Big ticket items have saved us money (labor, hiring delays and staff vacancies).
iii. The consultant who does the comparisons of surrounding community costs has said there’s a 20% difference with UA being cheaper.

iv. Shuttle service from Keystone is $96 per hour. The actual costs will be sent to Saken later.

v. Camera project:
The entire campus project is being discussed with the Assistant Vice Chancellor for Housing. The UASRA request is being reviewed in context to the entire housing community. Meetings have occurred, Shirley’s counterpart on the hill is in agreement about the installations, but that needs to be considered within context. We need the UAS community to be patient about the changes. Rose and Clarington have a higher need for cameras than UV, since UV already has cameras.

vi. UCPD = $570K/yr

vii. UCLA Trans Shuttle = around $200K-300K/yr.

e. See rules & regs:
i. We cannot sell things from out of our apartments. Don’t run a business.

Meeting adjourned.

---

Tivoli Rainbow Garden Preschool is starting enrollment for Fall 2015 NOW!

We are a Waldorf inspired, play based, developmental nursery school. Teaching to resolve conflict in a caring environment.

Fostering community through celebrating the rhythm of the year with festivals and gatherings with the whole family

Flexible days, weekly programs and a bilingual program.

A loving, home-like nursery school in your neighborhood, Mar Vista, West LA and Santa Monica.

We still have spaces for the Fall 2015 for the morning and afternoon program. We would love to have you join us for a tour.

For more information please visit our website www.TivoliKindergartenLA.com

To find out about tour dates please email us TivoliRainbowGarden@gmail.com
Safety Topic: Carbon monoxide Poisoning

California's Carbon Monoxide Safety Law: In May 2010, an important public safety measure was signed into law requiring all California homes to be equipped with carbon monoxide alarms. CO alarms are required in addition to smoke alarms and are not intended to replace them. Do you have a working CO alarm in your home? It is important to get one if you don’t have it.

What is carbon monoxide?
Carbon monoxide, or CO, is an odorless, colorless gas that can cause sudden illness and death. It is known as the "Silent Killer" because it can catch its victims completely unaware. CO is the leading cause of accidental poisoning deaths in the United States and accounts for up to 700 emergency room visits in California each year. CO poisoning can cause severe and chronic brain, lung and heart injuries and can lead to death. The only safe way to know if there is CO in your home is to arm your family with a working CO alarm.

Where is CO found?
CO is found in combustion fumes, such as those produced by cars and trucks, small gasoline engines, stoves, lanterns, burning charcoal and wood, and gas ranges and heating systems. CO from these sources can build up in enclosed or semi-enclosed spaces. People and animals in these spaces can be poisoned by breathing it.

What are the symptoms of CO poisoning?
The most common symptoms of CO poisoning are headache, dizziness, weakness, nausea, vomiting, chest pain, and confusion. High levels of CO inhalation can cause loss of consciousness and death. Unless suspected, CO poisoning can be difficult to diagnose because the symptoms mimic other illnesses. People who are sleeping or intoxicated can die from CO poisoning before ever experiencing symptoms.

How does CO poisoning work?
Red blood cells pick up CO quicker than they pick up oxygen. If there is a lot of CO in the air, the body may replace oxygen in blood with CO. This blocks oxygen from getting into the body, which can damage tissues and result in death. CO can also combine with proteins in tissues, destroying the tissues and causing injury and death.

Who is at risk from CO poisoning?
All people and animals are at risk for CO poisoning. Certain groups — unborn babies, infants, and people with chronic heart disease, anemia, or respiratory problems — are more susceptible to its effects. Each year, more than 400 Americans die from unintentional CO poisoning, more than 20,000 visit the emergency room and more than 4,000 are hospitalized due to CO poisoning. Fatality is highest among people 65 and older.

How can I prevent CO poisoning from my home appliances?
- Install a battery-operated or battery back-up CO detector in your home and check or replace the battery when you change the time on your clocks each spring and fall.
- Have your heating system, water heater and any other gas, oil, or coal burning appliances serviced by a qualified technician every year.
- Do not use portable flameless chemical heaters (catalytic) indoors. Although these heaters don't have a flame, they burn gas and can cause CO to build up inside your home.
- If you smell an odor from your gas refrigerator's cooling unit have an expert service it.
- Learn more about CO poisoning and how to prevent it.

Patience Afulani - UASRA Health and Safety Delegate
Reduce your carbon footprint by biking to school or work

UCLA is a designated bicycle friendly university. Check what sources UCLA provides, make your plans for biking to school or work - reducing your carbon footprint is fun and easy!

Put Traffic Jams Behind You

Riding a bicycle is a fun, healthy and inexpensive way to get to campus. You don't have to be an Olympic athlete to get to class or work. There are over 2,900 free bike parking spaces in racks all over campus.

Rent a Bike from the UCLA Bike Library

Need a bike for a few months? UCLA students can rent bicycles from the Bike Library for only $50 per quarter. Please contact the UCLA Bike Shop to rent your bike today.

Safety First

Since you'll ride on busy streets alongside vehicles, it's important to always wear a bicycle helmet. It's also critical to keep your bike locked at all times. UCPD reports that most stolen bikes weren't locked. To protect the safety of both pedestrians and bicyclists and maintain consistency with the 2006 UCLA Bicycle Master Plan, UCLA has established a Dismount Zone policy in Bruin Plaza, Bruin Walkway, and the Parking Structure 8 Corridor from Westwood Plaza to Gayley Ave. Signage has been posted and bicycles, skateboards, roller blades and scooters must be dismounted and walked through these designated areas. UCLA Police are authorized to issue tickets, starting at $202, for those who continue to violate the Dismount Zone Policy.

UCLA Bike Shop

Days/Hours of Operation: Winter 2015 Calendar

Please note that the Bike Shop is closed for the first week-and-a-half of each quarter, during Finals Week each quarter, over Academic Breaks between quarters, and on Federal Holidays.

Location and Main Entrance: Northwestern corner of the John Wooden Center.

Phone: (310) 206-7219

Repair Stand with Tools and Air Pump: Just outside the Bike Shop (available anytime)

BICYCLING AT UCLA

April Lin - Green Coordinator
I wanted to interview some non-Americans for our second column. We are Hungarian! Yes! I feel
Hungary is a place that not a lot of people know much about. It’s a country of about 10 million
people, in central Europe, between Austria and Ukraine. Well, we like to say it’s central Europe, but
perhaps it’s eastern Europe. [laughs] Ha, I have a Czech friend I tease about that. I hear Hungarian
is a difficult language. It’s supposed to be the second most difficult language in the world, after
Chinese. Is it similar to Russian? Actually its closest relation is Finnish. But there is no language really
like it. No one understands Hungarians! So what makes it so difficult? We have a lot of suffixes, and
accents. There is no fixed word order. No fixed word order?! don’t tell the Germans. Gergõ: [laughs]
yes, and there are more exceptions than rules. I guess I’m not learning Hungarian any time soon. So
what brought you to America? Zsófi: [laughs, pointing] him!! A common story… Gergõ: I got a
Fulbright scholarship [to do a PhD in Computer Science, in animation and special effects]. Was LA
your first choice? Well we had never really planned to come to America. But when we looked at the
options, UCLA was the best, professionally - and we liked the idea of the nice weather. You seem happy
here. Zsófi: Yes. It took me a long time to have my Hungarian psychology credentials recognized, but I
did it, and I have a job that I love. [Zsófi has just returned to work after 9 months at home with Samu.
She is running a psychodrama therapy group in Santa Monica.] Do you miss Hungary? Zsófi: I miss the
people! Hungarian people are not really friendly at first. Gergõ: there is no small talk... Zsófi: But once
you are friends, you are friends for life. I miss the seasons too, especially winter. I can understand that.
Will you go back there? It depends on job opportunities, but yes, we hope so. Tell us how you met.
[laughing] The official version please! No no, the real story is ok. Zsófi: I threw a St Ivan’s night party
[Mid Summer’s Eve]. And a friend brought Gergõ. So you crashed her party. [laughs] He taught me to
dance salsa in a park in the middle of the night. Nice! Gergõ: the next day she told me she liked me but
would be going away for a while to the countryside....I didn’t know what to think. Zsófi: so he followed
me there, to my mother’s house! I had no idea what to tell her. Meet Your Neighbour likes a man who
knows what he wants. Samu is laughing. Will you be like your father? And after that? I know that
you built a boat together. Zsófi: we were on a cycling trip by a lake – Hungary has the largest lake in
Europe, it is 72km long. And Gergõ said, let’s build a boat! We didn’t even know how to sail at the time.
Gergõ: we had no money to buy a boat! Zsófi: He was about to go to India for three months to work. So
I thought, let’s see what he says when he gets back. Maybe he’s going to tell me we’ll build an
aeroplane…. But you did it! How long did it take? It took us three summers and a lot of weekends! [I
have seen pictures - it’s a very beautiful boat]. Where is she now? In Hungary, at our summer house by
the lake. One day you can teach Samu to sail in that boat. That’s amazing.
Alright, time to share your LA tips. Any favourite restaurants? We like trying food from all different countries. There’s a Himalayan place on Venice [ Tara’s ] that we really like. And how about things to do? You are a very active family…. We sail here, racing boats in Marina del Ray. Fancy! Gergő: even the super rich need people to play with! And we love the beach. Our favourite is north Venice, there’s a park with a kind of snail house [ we all look at Google maps. It’s Ocean Park]. Zsófi: I love hiking, but I miss the forest. Everything is so dry and dirty here! Agreed. It makes my eyes sort of thirsty. Where’s a good place for a new LA hiker to start? So many places! The Santa Monica mountains, the Hollywood Hills. And your favourite free things to do? Kenneth Hahn Rec. in Culver City is an amazing park. And we like to go to Century City mall, especially around Christmas, get some food, and walk around. It’s cosy, especially when it’s cold. Cold! If only. What do you like most about living in UAS? Zsófi: The community. I know that when I come down to the playground, there will always be somebody to talk to. And what do you not like? Gergő: The ridiculous rules, which are not enforced. And because of that, the sensible rules do not get followed! Come to the community meetings and talk about it! But Wednesday night is sailing night…… Ok, ok.

Guys, thank you for talking to me. It’s been a pleasure.

Dashew’s Weekly International Programming

Important: A Dashew Center logon is required to register for our events. Everyone (including spouses) is eligible for a UCLA and Dashew logon. Please create a logon at www.internationalcenter.ucla.edu

TICKETING HOURS: 8:30 AM – 1 PM. All events include round trip transportation.

UPCOMING PROGRAMS - Click on the links below to find out more about the event!

- Universal Studios (Feb 7) – Purchase your tickets online
- Car Buying and Selling: Exclusive Workshop (Feb 10) – Register online
- Mindfulness Workshop: Yoga and Meditation (Feb 11) – Register online
- International Speed Dating (Feb 12) – Register online
- LA Philharmonic: Chinese New Year at the Disney Concert Hall (Feb 19) – Purchase tickets online starting Feb 6
- Spring Break Travel*Mate Trip: Wild West (March 22 - 25)

Dashew Deals - Click on the links below to find out more about the event!

- Need to furnish your apartment? Would you rather rent furniture than buy it? CORT can help!
- Looking to purchase a car? Or do you need help selling the one you have? Roudr can help!
- Searching for a place to live? Zuma can help!
