1. Introductions
   a. Some new people

2. GSA Report from Richard Thai
   a. No, they don’t have our money yet. There is a new department so they are trying
to allocate money to them correctly and then they will tell everyone.
   b. Engineering Department started a youth homeless shelter on campus. The ED
has funding for it right now and it will start in the next academic year. If people
want to get involved, they can search “Bruin Shelter” or search Louis Say. They
also sent GSA reps the proposals
   c. Budget may come tomorrow but it is unclear - last week, GSA said it would be
ready this week, so we will wait and see.

3. Requisitions
   a. Jacob motions, Francesca seconds. All in favor of requisitions (except cash
advance) - passes unanimously.
   b. Cash advance to Urban Planning denied
      i. Tell them that they wouldn’t get it in advance anyway - should apply a
month in advance to get the check.
      ii. Question about logistics - what is the workflow for these types of
situations and how will we communicate it back to the requester for the
cash advance.
      iii. Mia will email Stephanie Tsai to tell her that the requisition was denied

4. Miscellaneous
   a. Kevin Kind requests that GSA meeting announcements be sent out to the
listserv; Mia will do this.
